NOTICE OF APPLICATION FOR VARIATION OF WASTE MANAGEMENT LICENCE ENVIROSERV'S CHLOOROP LANDFILL SITE GAUTENG PROVINCE

Nature and Purpose of the Variation:
EnviroServ Waste Management (Pty) Ltd (EnviroServ) own the Chloorop Landfill Site (CLS) and operate it in terms of a waste management licence (WML) (Ref: 16/2/7/A230/D17/Z1), issued in 1997. The CLS WML been amended a number of times, the most important for the present purpose are the MEC's 2016 Height Amendment Decision (Gaut:006/12-13/W0001) and the 2019 Cell 7 Approval. A general condition of the 2016 Height Amendment Decision is that the CLS WML's validity period expires at the end of 9 August 2021, after which capping closure must be implemented.

The waste body at the CLS includes seven (no. 7) waste cells which comprise the authorized airspace for waste disposal. Cell 7 is the most recently developed portion of the waste body, providing 398 000m3 of airspace. EnviroServ had commenced the process to plan, design, authorise and construct Cell 7 in early 2019. Due to a variety of administrative and legal delays, as well as the impact of the Covid-19 pandemic, Cell 7 was only commissioned in November 2020. As a result of the delay in development and use of Cell 7, the airspace will not be fully utilized by 9 August 2021. Given ongoing demand for waste disposal services in the region and EnviroServ's investment in Cell 7, EnviroServ has proposed to extend the validity period of the CLS WML to enable complete utilisation of the authorised airspace in Cell 7, after which capping closure would be commenced.

Waste Management Activity and Location:
The CLS is used for the disposal of general waste received from the Midrand and Kempton Park regions within the City of Johannesburg and the City of Ekurhuleni Metropolitan Municipalities. The site is located in the Chloorop Industrial area on Portion 63 of Klipfontein 12-4R and is accessed from Marsala Road.

Notice is hereby given of EnviroServ's application for variation of the CLS WML in terms of Section 54(1)(e) of the National Environmental Management: Waste Act, No. 59 of 2008. Application to extend the validity period of the CLS WML has been made to the Gauteng Department of Agriculture and Rural Development, as the licensing authority.

Access to Information on the Application:
SLR Consulting (South Africa) (Pty) Ltd (SLR) has been appointed as the environmental assessment practitioner responsible for management of the application. A draft Waste Impact Report, containing information on the application, the rational and motivation for the extended validity period, and details on potential environmental and social risks and impacts has been produced and will be available from the SLR website at: www.slrconsulting.com/public-documents from 2 March 2021. Hard copies of the report will be placed at the CLS site office and at the Phomolong library (please follow COVID precautions if you access the hard copy report).

Submission of Representation or Objection:
Stakeholders are invited to submit written representation on, or objections to, the variation application within 30 days. For your submission to be included in the final Waste Impact Report, that will be submitted to the GDARD, please deliver these to SLR by 2 April 2021. To submit comments or raise concerns with regards to the CLS WML variation application, please contact:

Mbele will make his debut soon

Stephan Lehman

With his debut fight less than a month away, middleweight fighter from Team Sweat Box is feeling cool, calm and collected.

The Golden Glove fight is set to be held on March 14.

The 21-year-old boxer has a deep-rooted passion for the sport, something which he cannot describe.

"It feels like a natural talent, ever since I was a young child people always said I had a potential inside me."

From the age of 10 years old, Mbele started training himself at home, learning to throw punches.

"Because I never had any proper equipment at home I would put on my gloves and punch the wall," said Mbele.

"My grandfather and father always encouraged me to pursue the sport, pushing me to become better."

As he grew older Mbele wanted to get into the ring professionally and started looking for boxing gyms to join.

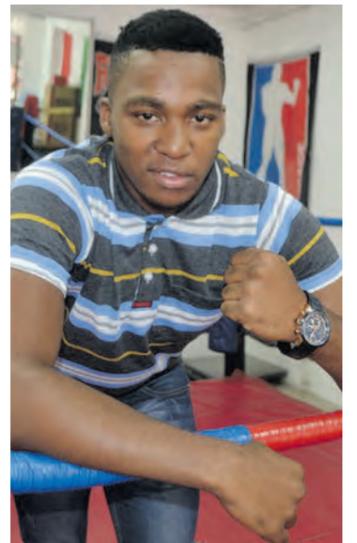

"I was chased away from several gyms because they only trained professionals and not amateur boxers."

"I remember seeing the signs for the Sweat Box when I was walking back home from high school so I asked about joining the gym."

"The coach wasn't in at the time but the boxers were welcoming and told me anyone, professional or amateur, could join the gym."

Before Mbele could climb in the ring coach Mimo Spirito ensured that he was ready and could hold his own by putting him through the paces of the boxing class.

By pursuing the sport of boxing Mbele said it helped him become more disciplined.

21-year-old middleweight fighter Nelson Mbele is ready for his debut fight. The Golden Glove fight is set to be held on March 14.

"It helped me escape a lot of the negative influences in life which affected some of the people I knew in high school," said Mbele.

Besides assisting him with discipline Mbele said he enjoys the competition of the sport and looks forward to his fight.

Spirito said leading up to his debut Mbele had several white-collar fights and is ready.

He described Mbele as having a great support system behind him.

"His father, what a gentleman," exclaimed Spirito.

"Mbele's father always backs his son, he is always proud of his son and is always there for him."

Looking to the future Mbele hopes to make a name for himself.

"I want to help grow the sport, I want to make my coaches and my teammates proud," said Mbele.

Skaters flip out at the park

Skateboarders from far and wide were enjoying themselves at Edenvale Skate Park on February 20.

The skate park attracts skaters and on occasion BMX cyclists from Germiston, Kempton Park, Boksburg, Kensington, and over the past weekend Pretoria and Randburg.

The free-to-use municipal facility can be used by anyone hoping to improve their skating skills.
